GITHUB:

- Github ia an hosting service platform
- On git we can able to store any type of file by creating a repository
- Github encourage teams to work together to build and edit their site content.

Jenkins:

What is GITHUB Action?

Platform to automate developer workflows

What is Jenkins?

It is open source automachine server, we can run in docker also
It is very popular in CI(continuos Integration) server
Written in java run on any operating system

Why we are using Jenkins?

 Use to run test and build
Build islike .Jar file
Trigger job automatically like corn or code comitte on git
CI
CD & c deployment

Cmd

ls
Ls -a
PWD
Cd desktp/
Ls
